“Prevention against the Fastidiousness (mosquito)”

Ministry type Harvest Training
Area of impact: Physical-Social
Country: Honduras
Approx. date : January 17th 18th 20th 22th 23th and 25th, 2010
Report source : Ramiro Carbajal rcarbajalw@hotmail.com

“Prevention against the Fastidiousness (mosquito)” participate 172 women of six (6) communities, more than 3,000 houses visited, cleaned and left medicine against the mosquito. That was wonderful the community can to see that God loves you; because this time the government give a red alert about this disease, because some people die; so that women group remember the lessons of Seed Project and Discipline of love and Management of Project and saw that they can do something for help her community. Then they had a meeting to pray and make program and they was asking for help in the health center, and then they made the project in the community, and other women of the community help too.
