Title: Samaritan Strategy Training

Ministry type: Discipline of Love

Area of impact: Physical/Social

Country: Kenya

Approx. date: January 28, 2010

Report source: Bob Moffitt, bmoffitt@harvestfoundation.org

And Rev. Meshack Okumu, Carlile College

This is a story about how church leaders are demonstrating God's love in their communities as they attend the Samaritan Strategy training in Kibera. When the team of trainer, i.e. Abraham, Esau and myself begun training in Kibera in January, we encouraged the pastors and church leaders to apply what they had learnt. Through this training, some pastors and church leaders have had their ministries affirmed while others who were getting tired of demonstrating love to their neighbours have had that love rekindled. There is this lady by the name Beatrice from Galilee Pentecostal Church who had little interest in her neighbours even though she is a leader in that church. After attending the training she went back home where she visited a neighbour; to her surprise the neighbour's children were sleeping on a torn carton. She went back to her house took the mat belonging to her children, cut it into two and gave one piece to her neighbour. The neighbour was shocked by this kind gesture and now they have become great friends. Their social relationship has since improved and whenever any of them is lacking something they are free to borrow from one another.
