

## STORIES OF TRANSFORMATION

**Title: Visit to an Unreached Area**

**Ministry type: Missionary Journey**

**Area of impact: Spiritual**

**Country: Mongolia**

**Approx. Date: October 2010**

**Report Source: Munkhuu Tuvshin**

Several years ago, I had the opportunity to train the brother who wrote the report below. His name is Munkhuu Tuvshin. He is a pastor in Mongolia. He is serious about the necessity of wholistic ministry as a way to reach his nation with the Gospel. He has translated BASICS I and II into Mongolian and supervised the publishing of both and is using them as a discipleship training tool in his church. Munkhuu has done a number of wholistic mission outreaches both in the capital city as well as to unreached people groups in his nation. Here is a report of one of his personal mission trips. Bob

Hello dear brothers

I am happy to write this email to you and I return back from the Dariganga (village of Sukhbaatar) and I spent a time with a local leaders and believers and other people and this trip was very interesting and different and God worked during whole my trip and my trip date was 25<sup>th</sup> – 01 of November.

Sukhbaatar has a only two churches in the center and other 12 villages no churches and local church is looking for one village so this country really need to God's kingdom and many people they not knowing our Jesus Christ and I advice to leaders that we need to demonstrate God's love and gospel is not just speaking and I mean I would tell them about how we spread out God's kingdom by wholistically and this country need this kind of ways to reach out people for Christ and we need to serve for them and let them know more right principle of kingdom and please pray for this country.

At this trip I went to Dariganga and Daringanga is most hard place than other villages of Sukhbaatar and there's very strong religion bondage and they have a mountain and they worship this mountain and put their all needs even Mongolian president decided this mountain is special for their believeth and people sacrifice this mountain once a four years and at this time every area's Mongolian people come down there with president and there's huge events so this area is really need a prayers and works to do so I had a hard times during in Dariganga. One believer who gave me the address of family in Dariganga but they don't want to let me in their house because of Jesus and I don't know any person there but God really blessed in Dariganga and many people they rejected us because of Jesus but God was working there very special ways

and now we have made a good contacts with some people and we didn't stop to telling about Jesus Christ by right ways. Praise the Lord because we had a persecution there but God had been with us all the time. Dariganga has no any believers and no churches but Lord put a seed through us there so we will see this country like our heavenly father I mean will start a church there and send a missionary.

This is Dariganga's picture and I was praying for this country on the mountain.

This is a famous religion mountain and they sacrifice once a four years and during at this time huge celebration here even Mongolian president who involve this event and there's strong religion bondage and people heart is hard but God is big more than any things and He is Lord of Lord and King of King. Praise the Lord.

He's name is Rentsendorj and he is local church leader and I took him for this trip and at this time we decided to take a person from local church and I didn't take any person from our church and just myself went to this place and I thought this is better because during a trip we had a wonderful discussion and I tried to disciple him and advice him and I learned from him a lot too and I am thanking God because He is so encouraged and we solved together his some spiritual and other problems during a mission trip and we had a devotion every morning and together persecuted and pray together oh it was so good and he is very encouraged and build his faith more. Praise the Lord.

This is one of their worshipping statue and they believe if some one who having no babies they pray to this statue and this place has two more statue and they also having no boys they pray to this and it was so sad but I hope that God completely started to work through us and God loves them so much because God created a earth and this people worshipping God's creation and please continue to pray for this place.

We have made a very good relationship with this family and last night we stayed their home and we talked with them about God and although they didn't except but their heart is opened.

This family is one leaders of local church and I spent a time with him mostly because he had a some problems and we had a very good time together and I hope that God sent me to this place right time.

I was preaching at the church and this Sunday that two churches got together them I preached and I shared from God's word about a church and how can we demonstrate God's love and then get a nation for Jesus.

I met this boy in Sukhbaatar and he is disability and first time I was meet him my heart is so moved and he is very smart and he was singing a song for us and he's story is so sad and his mother left him right after born and his father is army man I mean his father is out door man and he lives with his grandmother and why he become a disability because no parents caring for him and no food and this is so sad now he has a bone inflammation and I asked from his grandmother and what is best the treatment for him then she said consistently fruitful and quality food and some more vitamins and other treatments and she said that my son is getting better but they have a problem to provide him by the food and I helped him for my best but I am looking to help for him and one day he will praise God and serve for him because we loved and demonstrate God's love for him. He is name is Togoldor and 8 years old now. Please pray for him because we need to help for this boy.

This is just short report and we had a great testimonies about how God merciful for us and God worked during a mission trip very strongly and we saw how God protected his children and God delivered us from many hard situations and God showed us a way to work for this country in the future and we have a made good contacts with local people and many people they heard about Jesus Christ and local leaders and believers encouraged and they made a right decision through this trip so finally only God will glorify through all our services because our all things only for God's glory.

Under the same Wings  
Munkhuu
