Title: Roof for Joty primary school

Ministry type: physical & social

Area of impact: Physical & Social

Country: Far west, Nepal

Approx date: June, 2010

Report source: Madan Shah (shahprince28@gmail.com)

On 29th May 2010, there was big storm in Tikapur, Kailali. It has damaged so many places along with Jyoti primary School's roof has fallen down completely; it was thatched roof so school was closed for one week.

We prayed and I personally shared in our church & friends. And God spoke to one of our friend and he supported most of the things needed for roof (steel sheet, J hooks, nails, plain sheet) But wood & bamboo was supported by Tikapur Christiya Church and local community did all the labor work. One family sends one volunteer for labor work.

Now, one hundred and ten children are studying & three teachers are serving in this school. Children's and teachers are happy because now they can study in school in any season whether it would be rainy, winter or summer. This new roof will protect them from sun & rain.

Two years back, when we have started this school there were no single believer in this community. But within two years through this school work we are able to reach out more than thirty people in this community. We have started house fellowship in this area.
