Ministry type: physical & social

Area of impact: Physical & Social

Country: Far west, Nepal

Approx date: June, 2010

Report source: Madan Shah (shahprince28@gmail.com)

As you know, last year, there was very big flood in Kailali. Many people had lost their house, land & beloved one. After that tragedy they left their place and came near by Tikapur. There were lots of school children who has left their school. To continue their classes we have started new school for these flood affected children. In the beginning, we have started school with bamboo & plastic tent. After few months, tent was damaged and children were studying under the tree. But these days we have extreme summer out here. One cannot study under the tree so we had a meeting with local community. We encouraged them to build temporary building for school. With the help of Church, they were able to build three rooms with nice roof.

Now 135 students are studying there & five teachers are serving. Through this school, we were able to build good relation with local community. It has helped our local church to spread the gospel .Many people have been given their life to Christ. Now there is house fellowship going on every Thursday
