

MINISTRY STORIES

“Helping the needy”

Ministry type	Discipline of love
Area of impact	Physical/spiritual
Country	Myanmar
Approx. date	Dec., 2009
Report source	Muana, muana58@gmail.com

1. My wife and I went to the house of a needy family. After giving a bag of rice and a small amount of money for their family christmas celebration and school fees for their daughter, the recipients said that it was just in time that only a little rice remained for the next few days' meals. With the small amount of money, their daughter could settle her school fees. Besides, they were able to pay the Church for their family Christmas meal and joyfully join the Christmas celebration that year.

2. Similarly, a small love gift was given to a Burmese non-christian woman about 70 years old. Since giving the gift, her heart softened and she could afford to come and visit us from a long distance. Her heart was full of gratitude and joy and testified of the taste of real love with our family.

3. The father of a young lady of 9th Standard student came and brought his daughter to live in our house for medical treatment. The daughter suffered unbearably from a painful cancerous tumor in her nose. She was hospitalized at Mandalay government hospital. Being touched by God's love through our humble assistance and care for them, the father had made a tremendous change in his attitude and started to regularly attend his local Church which he never did before.
