

**Title: Christmas celebration with the community – Carapita Church Vida Nueva**

**Ministry type:** Seed Project    **Area(s) of Impact:** Social /Spiritual

**Country:** Venezuela - Carapita                      **Date:** December, 2010

**Report Source:** Xiomara Suarez

The Carapita Church Vida Nueva held a great Christmas celebration, but this time they decided to have a Christmas dinner with the community. It was a very special event in which all the church got involved preparing food and serving their neighbors. The believers fixed large tables on the street in front of the church and every body in the community was invited to the Christmas celebration. They had music, a short message from pastor Lugo about the real meaning of Christmas, games and great food! God multiplied the food (as He always does) and around 350 people ate. The neighbors also received a small new testament as a gift from God and everybody was very happy and grateful to God. Of course, the children were also important part of the community party and they were very happy as you can see in the picture.

Street in front of the church! The believers served and blessed the community!!!
