COTONOU(BENIN) VISION CONFERENCE FOLLOW-UP AND TOT.

Chris requested that I did a three day VC follow-up and TOT in Cotonou, Benin. 16 members of our team participated and it was so successful. A participant share a seed project concerning the fitting out of a house containing rain water.

The objective is to allow the inhabitants to stay in their home when it rains. Because of this action, particularly Catholics in the area now allow their children to take part in the program of the church toward kids.
