

Latest Harvest News About Haiti

Dateline: Friday, January 29, 2010 15h00 EST, Ricci Paulino

Praise report and prayer concerns.

1.- Rescue teams found a 15-day-old baby alive in a crumbled house here Tuesday, after she'd spent nearly half her life without food or water amid the ruins of last week's earthquake.

2.- Please praise the Lord as Guerino`s children are safe and good. They are now in the Dominican Republic with Ricci and his congregation.

3.- Please pray for Guerino and his wife who are arriving tomorrow in Santo Domingo to meet with their children and Dominican friends.

4.- Please pray for Guerino`s next steps. His family, ministry and country need him.

5.- Praise God as brother Ricci together with John Wood and a few more people were able to go to Haiti for their second trip to bring supplies for Haitians. They really had a blessed time and work!

6.- Now I ask you to pray more for the following Haiti related situation.

Please pray for Haitians in Dominican hospitals. Many people do not know what to do or where to go after being healed.

Please pray for the Dominican soldiers to be sent to Haiti to help with its restoration.

Please pray for condolence of those Haitians who died on January 12. The Haitian government said that there were 111, 499 dead people so far.

The United Nations said that survivors can still be found in the debris of Haiti's devastating earthquake a week after the disaster, with international rescuers having pulled out over 90 people alive.

Please pray for the several banks in Haiti. They opened doors to serve the Haitians.

Please pray for them as they incinerate their dead ones.

Blessings to you,

Ricci Paulino
