

# **HARVEST-HAITI**

February 2010

## **Report on the distribution of goods and Money to Haitian victims of the 12 Janvier 2010 earthquake**

**Trip Dates:** February 11-17

### **Team responsible for the distribution**

- The Harvest team in Haiti under the direction of Pastor Guerino St. Simon

### **The amount of money to be distributed: \$5000 U.S.**

- \$4000 U.S. was distributed directly to people for food purchases
- \$1000 U.S. was used to purchase and distribute tents

- We gave a small amount of money directly to needy people and families, enough to purchase enough food for 7-8 days.
- We had tents built and distributed to those particularly in need.

The tents are constructed with PVC plastic tubing forming the frame, then covered with plastic. Each tent is large enough to shelter from five to eight people. All of the materials used are readily available for purchase in the public market.

**Number of beneficiaries: 60 families**

### **How beneficiaries were chosen:**

- People who are especially needy economically because of the earthquake.
- People who were severely affected by the earthquake.
- Women who lost their husbands in the earthquake and have no resources available to care for their own children.

### **The religious faith of those receiving aid:**

The list of beneficiaries is without discrimination, whether one is a Christian, or not yet Christian.

### **Who is responsible for the construction of the tents.**

A small team of five people is in place to Guild and install the tents. Their remuneration is that same as the other beneficiaries.

We warmly thank all who have donated to the needs in Haiti.

To God be the glory!

Presentation -- Past. Guerino St. Simon
