

# Training in Bainet before the earthquake Harvest-Haiti

June 30, 2010

## Weekly report and Prayer requests

Thank you for your prayer. We had a good time in Bainet for the training last week. We went there on January 23, and the training was done January 24 and 25. One interesting thing for us at that time is, inspite of the first day was a rainy day, people respond with zeal. We had a big participation of people in the training. We had a total of 87 participants, 61 men and 26 ladies. We had an additional time with them to talk what kind of help that they want to have, or What is the priority for them? The answer is "To help them rebuild or repair their home" This is the biggest need for them now. Please continue to pray for the process.

### Prayer requests

- We praise the Lord for the training in Baining last week.
- We praise the Lord for the meeting with the people about the relief.
- Please keep praying for the country.
- Please continue to pray for the work that I am doing home now to fix my house.

God bless you.  
Pastor Guerino

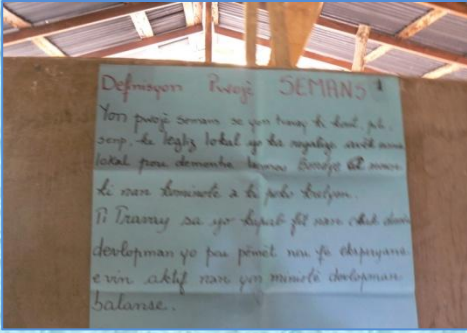

Picture number one: This is the Church building where the trainnig center is a located

Picture number two: The picture number two and the last picture are the house of the Pastor who is the coodonator of this training center.

Picture number three, four and five are church leaders in training.
