

CONFERENCE NARRATIVE REPORT

July 1st and 2th, 2011

Theme: “Harvest encourages and prepares local Churches around the Globe to demonstrate God’s intentions in every area of life.”

Key verse: Luc 2:52

We have previewed to organize a staff conference, but as you know Haiti’s staff is not a large one. So we realize the conference in that way to let people know more about the work of Harvest in Haiti. For that we have invited leaders from other churches, organizations to increase the network of Harvest in Haiti.

As we were planning for July 1st and 2th for this year, the Haiti Harvest regional conference took place at Delmas 41 in the S.K.D.E.’s auditorium in Port-au-Prince.

We had many participants in those two (2) days. As participants, we had leaders who came from many different churches, different organizations or institutions. They have really enjoyed the moment. We also had different lecturers, among them: Keith Edwards, Jack Tesch, and Xiomara Suarez.

Keith, Jack and Xiomara

For the first day - July 1st,

We had a very interesting program. Past. Guillomettre Herode led for a few minutes a short worship service

Pastor Guillomettre leading the worship service

in what Jack Tesch meditated about intimacy between God and us; and how to enjoy that intimacy.

Jack in his meditation, with his translator

The global Staff of Harvest was presented to the participants. We have traced the Harvest story from the beginning to that day. We had Past Chavannes Jeune who explained to the public the first step of harvest in Haiti

Pastor Chavannes Jeunes

In the midday, we have learned a beautiful song talking about the way that Jesus grew in Luc 2: 52 and then we prayed together. That was so lively and wonderful; the melody of the song was so captivating and people have enjoyed this moment.

Learning the song about Luc 2:52

Here the conference song Luc 2:52 :

Luc 2:2

Nous enseigne comment Jésus a grandi

Nous parle de la façon dont Jesus a cru

Il croissait en sagesse – mentalement

Il croissait en stature - physiquement

Il croissait en grâce devant Dieu et

Devant les hommes afin de montrer l'amour de Dieu.

Keith Edwards talked about the associated staff, by showing people how to take part in the Harvest staff or how a Harvest's partner.

Keith in his presentation, with his translator

At last, as a last point to view for the day, Past Guerino has presented via slide show in Ms Power point (Video- projection) the global work that Harvest is doing in Haiti. He talked about training session and some kind of impact that those training do into the communities. He also explained that several times, the Harvest staff used to intervene when a natural catastrophe happen like hurricanes, earthquake, flooding, etc.. So for that, he seized the occasion to show some relief program activities

The second day – July 2nd.

Early in the morning, Past Guillomettre and Jack did the same thing, but this day jack meditated about God's love.

After that, Xiomara Suarez did her very amazing presentation about *World View* which many of them asked some interesting and curious questions. Xiomara and Past Guerino were very happy to answer and elucidate them in return.

Xiomara in her presentation, with her translator

Again in the midday, we sang and shared opinions about the same song (Luc 2:52). The animation was so cordial once again. And we prayed together.

Past Guérino in the seed project presentation has patiently explained to the participants what the seed project is, and how they can organize and realize a seed project in their community. They all understood and showed interest that they would apply what they learned.

The testimonies of beneficiaries were impacted so greatly the participants. Because there were several pastors and groups leaders who took place in that ceremony.

Beneficiaries giving testimonies of training session

During those two (2) days, we have created a little showroom with books traded themes of Harvest work and training.

Books about Harvest themes

And most of the participants bought at last one book to go back home in order to read and learn more about the powerful idea that Harvest is working through.

The coordination' staff during the two days conference

We thank the Lord because he allowed that the regional conference took place, we realize that meeting represents a great touch between people of other organizations and the Haiti Harvest staff. We hope that will give us much more opportunities, will open more communities' doors to train people in other to help them realize the real reason for what they are really created.

Thanks for your help and your prayer for the realization of this conference.

God bless you.

Jack, Xiomara ad the Harvest staff in Haiti

Pastor Guerino St. Simon

Harvest-Haiti Coordinator.
