One testimony according to this training

**One of the participants says that:
<When I was reading the book of the “Wholistic Ministry” at home I consider the “Seed Project” as the seed and the “Wholistic Ministry” as the harvest. When the teachers were talking about “Seed Project” I thought that they were talking about agriculture, but now I understand clearly when I am in the “Wholistic Ministry” training. >**

This participant says that: Christians in this area really need this kind of training. He says that “Harvest” come to open their eyes on things that they didn’t know.
