

## Four Generations of Discipleship

Purna      Madan      Bishnu      Bob

Bishnu came to Christ in 1990 from a Hindu Brahmin family in Nepal. He went through some social persecutions for the first few years. After three years of his conversion, his entire family came to Christ as they saw his changed life. He involved in community development as a career and served with UMN, WWF and World Vision from 1990 until he got a call for fulltime ministry in 2002. He went to ISOT-Asia Philippines for M. Div. studies for preparing himself for the ministry. He also pursued MA in community development at University of Philippines. While he was doing his theological studies, he encountered with harvest materials. Being a community development worker, he was looking for some biblical materials that would help local churches to be an agent of transformation to the society. As he found Harvest and DNA materials he expressed “This is what I was looking for.” He studies the material and started sharing and teaching with small groups and churches. In this course he came to contact with Bob in 2004. Since then he is walking together with Bob and joined Harvest as an Associate Staff in 2007 and serving in Nepal.

Madan went to Philippines looking for opportunities going to US or European counties for a job. Finally he ended up literally imprisoned in the hotel as he run out of money for paying hotel bills being like prodigal son. As Bishnu got a call from him and learned about his situation, he felt compassion on him and helped him got out of the hotel and brought him to ISOT-Asia dorm thinking that he would send him to back Nepal after fixing up his ticket. While Madan was with Bishnu’s family, he accepted Jesus the Lord and savior as response to the gospel he listened from Bishnu. Since his conversion he has been actively involved in different ministries and making impact to many young people like him. At present, with his wife Sophia & two sons, he is running three schools for poor children and kindergarten and serving as a youth pastor in his church in western Nepal. Madan joined Harvest as an Associate staff in 2010.

Purna came to Christ as he heard and saw the testimony of Madan. Purna had known about Madan’s past life. He was attracted to Christ as he observed the drastic changes in Madan’s life. Madan helped him grow in Christ. At present Purna is having GCTC training with CCC and planning to serve the Lord as a full time minister. Purna is only Christian in his family and facing rejection from his family for being Christian.... but he is very with his new friends and family in Christ and hope that his family would know the Lord soon!.

## A Seed Project

# Baking Training to Parents & Teacher of Little Lamb School

Most of Little Lamb School children used to have junk food for lunch and snack. Kamala realized that it would be worthwhile teaching parents baking bread and cakes so that they would not buy junk food but give children a good and fresh food instead. As Kamala shared that if any of parents interested for learning baking cakes, majority of them showed their great interest! As a seed project, Kamala and Little Lamb teachers organized baking training to parents July 31<sup>st</sup>. Twenty four of parents mostly moms participated the training and learned baking different kind of cakes. It was a great moment for knowing each other, sharing & learning together. Moms expressed their great gratitude for the training! Moms including some children enjoyed it!

Kamala: teaching baking cakes! Parents and Teachers enjoying learning it
