

EQUIPPING LOCAL CHURCHES WORLDWIDE TO DEMONSTRATE
GOD'S INTENTIONS IN EVERY AREA OF LIFE

Imparting the Vision and influencing communities for transformation is one of the passion Harvests is sharing among Churches. This is one of the strategies we are engaging to effectively help change communities.

PLANNING FOR A NEW APPROACH AND A VISION CONFERENCE

After, a field staff of Harvest based in the Philippines explained about an approach for expanding a ministry in the community, Ptr Joe Casas, Senior pastor of What the Bible Says Church, was very excited to embrace the said approach. To start the new paradigm, he invited Nonoy to preach to his church. After the service, a meeting of leaders was held. Everyone was happy to participate and indorse the conference. The pastor even planned to integrate Leadership for Church Ministry training (LCMT) to be a part of the curriculum of the Bible School where he is the President. Please pray for the preparations and smooth execution of this seminar and new curriculum for the Bible school

Nonoy, Dr. Heidee and Cheng

Vision Conference to be held in Romblon

Nonoy and Cheng, through the invitation of Dr. Heidee Exconde were able to speak among the youth in the municipality of Cajidiocan, Romblon last year. Many among the youth, young and adult heard about the message of God's love. After the occasion, Dr. Heidee, introduced the couple to Ptr. Tamayo, a denominational leader and head pastor of the church where she is attending. The couple shared with that pastor what they are doing and the possibility of conducting a Vision Conference. He gladly received the idea but said that he had to pray about it first. After more than a year of praying, the Lord worked out in his heart to push through with the conference. It would be on Dec. 7 - 8. Please pray for a commitment among the pastors from the group of Islands of Romblon.

Ptr. Tamayo's family,
Nonoy & Cheng

RARE MOMENTS

As what many of you know, our third child Annika, is a special child. Through her, we were able to establish a CdLS Philippines support group under NIH, UP Mla. Cases of Cornelia de Lange Syndrome (CdLS) in the Philippines is rare, that's why we decided to network with Philippine Society for Orphan Disorder (PSOD). POSD is composed of several groups with rare disorders.

Two Months ago, several groups like, Photography that Makes a Difference, SM group of Co., and Canon Philippines held a photo sessions at Ocean Park and Philippine National Museum for Children at Roxas Blvd. Few families were invited. One of them is our family. A month later, Annika's photos with our family and few other rare children, were shown in a Photo Exhibit at SM Mega Mall, Green Hills for about a week. The occasion was a blessing because God is expanding our borders through our special child. God is opening up ways by which we could minister to the needs and share the love of God to others. Please continue to pray for Annika for her Occupational, Physical, and Speech therapy needs. Please pray for sponsor who her and also also for her educational need.

Food Preparation Seminar

Praise God for the opportunity to conduct VC at Blessings to all Nation Bible School in Marikina. For me, it was one of the best VC because I could feel the presence of God and His anointing when I was teaching. It's truly a blessing to minister to God's people and be a servant in equipping His saints!

Right after the Conference, Students applied what they have learned. They found out that some young women in their community do not know how to cook food for their husbands. To address these needs they decide to conduct a seminar on Food Preparations. They invited those women they knew to attend the seminar. It was an exciting experience for students to show the love of Jesus through serving their community.

Opportunities though Telemarketing

Like Apostle Paul, there are times that God provided his needs through tent making business. Likewise, the Lord, through a friend, gave us an extra income, through a tele-marketing. The work was simple. I am reminding students and parent to attend a Dynamic Memory Enhancement Training Seminar. While calling those prospective contacts, there are times that the Lord gave me an opportunity to share the Gospel to those am talking with over the phone.

In one instance, I learned that the mother of the student I am prospecting died. The Lord gave me an opportunity to share that there is life after death, and this life is found in Jesus. This led the young lady to a prayer of acceptance.

In another occasion, I learned that neither of his parents was with him. Both of his parents are working abroad. He was staying with his grandmother who became her guardian. While conversing with him, I could sense his needs of parental love. I explained to Him that there is someone who loved him unconditionally. Toward the end of our conversation, John a third year student from Trinity University of Asia received Christ into his life as his personal Lord and Saviour.
