

Ending up the Year 2011

Annika, Abigail, Joseph, Sheb, Cheng & Donny

Reasons to be thankful for...

In our Family:

Our eldest daughter, Jehosheba, is now in her last year as a high-school. As usual she's home schooled at Living Heritage. This is the home school where she has been enrolled. Next year, we are praying that she'll get a scholarship in any University she would enroll. She is preparing herself to become a medical doctor later. Please pray for sponsors that would help her realized her dream. It is her desire to help our people especially in the rural areas. She wants to become a local missionary doctor.

Our second child, Abigail decided to transfer to a public school at Tandang Sora High-school. We thank God, although she's already late for 3rd quarter, the school still accepted her because of her high grades in her home schooling. She has just been accepted in 3rd year, weeks ago.

“For to us a child is born, to us a child is given...”

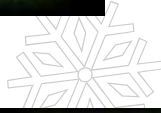

Annika, our third child is now an eight years old girl. We plan to send her to a special school, next year. We are praying for a sponsor to help her go to school.

Last December 15, we were featured in one of the episode of Krusada at ABS-CBN. ABS-CBN is one of the largest networks in the country. We praise God for this documentary film. It was one of the answers to our prayers for advocacy and public awareness for this kind of disease.

Cornelia de Lange Syndrome Support Group Philippines is a family support group which exist to ensure the early and accurate diagnosis of CdLS, share of experiences in raising children with CdLS , assist parents make informed decisions throughout their lifetime, promote research as to the causes and manifestations of the syndrome and increase public awareness on CdLS. We thank God as well for PSOD, donors and volunteers in helping our aims materialized.

Joseph Paul, our fourth child is enrolled in a kinder school near our place. He is five years old and enjoying his classes as a kindergarten.

Cheng is doing well. She's a partner in conducting seminars and in teaching women used their creativity. She's now honing herself in her skill in ladies accessories, beauty culture, baking and food preparation. She does it to be more effective in conducting livelihood seminars and creativity among ladies and mothers. She is also busy taking care of our special child, Annika and our youngest child, Joseph in his schooling.

In Our Discipleship:

Here are the highlights of those people we had been influencing to help fulfill the Great Commission. We would mention only those who have an urgent prayer request:

Wunna is from Myanmar. He got married to a Filipina and is serving in one of the churches in Cainta, Rizal for almost 10 years. He has decided to resign in that church to become a Choir Director of another church in Marikina. Please pray for quick adjustment for him and his family. He wants also to help us as one of the advocators in equipping ministry.

Benjo, Is one of the four medical doctors who responded to a challenge of helping fulfill the Great Commission by discipleship making. Since child, Benjo's desire is to become a surgeon. This dream however seems elusive. God may call him to another subspecialty. Although he scored second top among those who took an exam for surgery, he failed however to another area. As a young medical practitioner, please pray that God would give him wisdom and show him right decision of what subspecialty he would pursue.

Donny (Nonoy) with Dr. Benjo

Heidee had already complete her contract with Department of Health as doctor to a rural area or as doctor to the barrio. She had renewed her assignment as a physician under a local government in Romblon. She had help set the Vision Conference in Romblon and at the same time assisted Nonoy in facilitating Vision Conference at Cajidiocan, Romblon. Her desire is to honor the Lord by serving Him through her profession. Please pray for a right partner in life, a man of God who would have the same passion and mission in life serving God in the field of medicine.

Dr. Heidee

In His Ministry:

The last Vision Conference for this year was held recently in Romblon Province. The conference was held at Four Square Gospel Church of Cajidiocan, Romblon. Attendees came mostly from the same island in Sibuyan. Praise God of their desire to learn more of God's Living word. From the evaluation, they wish that the conference should have been longer. They are thankful to learn of the wholistic as an approach for the demonstration of God's love. They will challenge to motivate their congregations to be liberal in planting seeds of love to their communities as a way of life to demonstrate the love of Christ. They went home strengthened, with refreshed Vision they got from the Lord through the conference. Please pray that they would be consistent in accomplishing Seed Projects they planned to do. All these came to pass because of your unceasing love and support.
