

Equipments : 1 Boat Trailer  
2. 5.3 meter boat  
3. Rubber Rescue Boat

500 flood relief bags are being conveyed to a military truck which belongs to Royal Thai Army. About 50,000 troops, 1,000 trucks and 1,000 military boats are being used for flood relief in Bangkok and the surrounding area

A military truck with a banner on reading " Royal Thai Army helping the people" ferried our team and the boats to the affected area in western Bangkok

Most of affected areas ,especially in the deep lane , flood water reaches waist to chest level. Only by boat we can carry help to the flood victims.

Since the flood water level is high , our volunteers are required to put on a life vest while working in the field . The news also reported that there were people who die from chocking a polluted flood water.

Teacher and students from Bangkok Bible Seminary are helping to install a long tail engine in a 5.3 M boat .

As stain shown on the wall , the flood start to recede but it still remain high . People have been living under water more than a month now and have no clue how it take to drain all water out from their area.

Flood Relief bag contains necessary supplies such as canned fishes , white rice , instant noodles , mosquito coil , cartons of soy milks , cooking oil , boxes of dry chili paste , bottles of drink water

The worst of flood crisis causes damage to the churches but it can not stop HIS people to put HIS commandment like " Love your neighbor as yourself " into action.

*In the picture : Klong Luang Church located in the worst flood hit area but the church leader and members are eager to demonstrate love to their community.*

Because of High flood water level , a road can 't be used and the boat service fee is unreasonable high . Many people ran out of food and water as well as other immediate needs , especially Medicines

*In the picture : On the way we met a lady who is suffering from Hypertension and she ran out of medicine for 4 days . A nurse from our team is giving a basic check up for her .*

Drinking Water is one of the most requested supply in Flood hit area.

Small boats are used to convey supplies to the flood victims who live in a small narrow lanes.
